Bisses around Visp Start on September 28th, 2018

Wallis is the land of Bisses. These Bisses were used and are still in use for the watering of the dry hillsides of this region.

These water channels are real artworks. The inventiveness has been utilised for the building of these channels. Sometimes these are hung on rock walls. Sometimes they provide magnificent hiking tours.

Here we will go into Baltschiedertal and Gredetschtal, two places that are part of the natural heritage of UNESCO.

The third morning we will follow the "Pagan" Bisse located above Visperterminen.

This day we will go along magnificent routes along the Bisses of Baltschiederthal. First we will enter the vale taking along the Gorperi, Bisse whose name comes from the hamlet that is at its end: Gorpji. Once reached ze Steinu (the Stones) we will go out the vale following one of the most striking existing water channel: Niwärch. Niwärch (the new piece of work) has been built in the 14th century and its name suggests that there was another Bisse before.
